DETAILED ACTION

Drawings

1. The drawings received on 5/6/05 are acceptable.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: The primary reasons for allowance is that there cannot be ascertained prior art that anticipates or makes obvious the provisions of "pressure ducts in the sensor housing and in the hydraulic housing are interconnected..." in combination with the other limitations presented in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Weise et al (7,007,552) disclose a multi-channel pressure sensing apparatus.

Sommer et al (6,488,601) disclose an assembly for an electronic element and a hydraulic element of a control device for the automatic transmission of a motor vehicle.
